Beveled Plastic Ruler

Plastic Grid Ruler with Metal Edge

Incra Rulers (I just came across these as well and I will be trying one to see how they work)

Aluminum Triangles

<https://www.talasonline.com/tools-and-equipment/measuring>

Flexible Stainless Steel Rulers (cork on the back)

Incra Precision Marking Rules (they also have a T-square)

Safety Edge Cutting Guide (last time I checked it was sold out; it is expensive but your fingers are more precious! You might find one for a better price in a photography supply store because they can be used for cutting mat boards for framing))

Student Dividers

<https://www.dickblick.com>

AlumiCutter Rulers

Blick Aluminum Straightedge Rulers

Alvin Non-Skid Stainless Steel Ruler

Amazon:

Shinwa 12" 300 mm English Metric Rigid (1.250 wide x .040 thick) Zero Glare Satin Chrome Stainless Steel

We R Memory Keepers - I think this is the brand that has that plastic transparent ruler with the holes for making templates.
